Rosy Lane Farm Tour

The Greater Milwaukee Model T Ford Club visited the Rosy Lane Dairy Farm. We had every intention of driving our Model T's to the farm, but the weather didn't cooperate. The temperature never rose to 50° and the rain was constant. So, we all drove modern iron. Mark Paulson and Sharon Venski were the hosts and it was decided that the rain was entirely on Mark. Well, with that discussion behind us, we completely enjoyed the tour at Rosy Lane. This farm is run by 4 partners, who also run a similar farm in Kansas. The Wisconsin farm has more than 950 cows. They have four milking parlors and milk every 15 minutes, 24 hours a day. This farm produces about 20,000 gallons of milk each day. We were escorted by Lloyd W. & Daphne Holterman, who are very passionate and knowledgeable about dairy farming. The Wisconsin farm employs 20 people besides the partners. Prior to the tour, Lloyd held a question and answer period, where we were informed about the business of dairy farming and the history of this once family farm. We were then split into two groups and got the grand tour. This farm is truly impressive. This is by far the cleanest farm I have ever seen. The cows look like they get a daily bath. Lloyd

Carburetors Part 3

- 1]**— **Rosy Lane Farm** --- A rainy day tour to an interesting Wisconsin Farm.
- 5]**— **Model T Coach House** — Repairing a major hogshead oil leak & installing new bands
