## MOTOR MADNESS

*If it has wheels and an engine, you'll find it here!*

Sunday, May 17th, four Model T Ford's from our club participated in Pewaukee Motor Madness car show at the Pewaukee Village Park. All tolled, there were about 40 other cars, trucks, hot rods, construction equipment police and fire vehicles. Nothing like being out shined by an eight year old (Jacob Meinholz) with his own car show on the seat of his dad's (John) yellow speedster. A Milwaukee

Journal photographer took a few pictures and Jacob's picture appeared in the Monday morning addition of Milwaukee Journal (left). Frank sends his thanks for those that showed up on a beautiful sunny day. Mike and Dan Zahorik, John and Jacob Meinholz, Jim Oliva, Frank and Nancy Daily. Mike and John drove together from their homes to Pewaukee. John had his bendix cover fall off, causing a large oil leak. Only one retaining screw remained in the engine. Dan found another screw on the street. These two screws and some oil were enough to continue the trip. At the car show, we found out that Jim Oliva lost his license plate during his trip to the show. At the show we met Lee Pagel, who was our guide at last years Kern Tour. The Police and Fire company of Pewaukee were there to show off their equipment and allowed parents and kids to ask questions and view the equipment. There were a group of small VW replicas that were racing around. All in all a very nice car show. See more pictures on page 10 and on the web. Submitted by Frank Daily. ps Frank says, "The Journal photograph caught Jim Oliva undressing, it was not that warm to take your jacket off."

## Rebuilding a 1926 Rear Axle P.6

### Part 5

Our thoughts and prays are with you Erv

**3]**— **Editor's Message** — You may have missed the Seminar's, don't miss the tours!
