

PLANETARY

NEWS

This edition of the Planetary News is an abbreviated edition. The editor has decided to take some extra time off over the holidays, so many of the standard items that you would normally find in these pages will return next month. 2009 brought many tours, get togethers, seminars etc. by the Milwaukee Model T Club. All of these events were excellent and if you missed them, you missed out. Remember, anyone can participate in any event, whether a car is needed or not. 2010 will again have car and non car events. The winter Fish Fry will be on February 19th at South Woods. Another non car event is the Sunset Playhouse on January 24th. We will have the annual Spring Tune Up Seminar, here you can find help in repairing or improving your car. Or maybe you need to learn or improve your driving skills at the Driving Seminar. We generally participate in two different parades. Here is an excellent chance to use your car in a short, warm weather tour. We will have a number of tours. There is one tour being planned on the north side for the second week of June. There will be a 4th of July picnic and don't forget the BIG event of 2010, the 50th Anniversary of the Milwaukee Model T Club. The 50th Anniversary is scheduled for July 31st and August 1st. There are messages from President Bob Wirth regarding this celebration and it's planning, an article on the International club membership and message from Kevin Esser regarding the people taking responsibility for event items. Please attend the next board meeting(s) and contribute to our event planning and plan to attend those events when the time comes.

Message from President Bob Wirth

2010 has the potential to be a milestone year for us, The Greater Milwaukee Model T Ford Club, as we celebrate our 50th Anniversary as a great group of Model T Ford enthusiasts and as an active chapter of the Model T club International. I am personally humbled by the faith the club has placed in me to be your President for this milestone year. Along with the assistance of the club officers and the board of directors we will do everything possible to create an enjoyable year. Your participation will guaranty success.

As now planned, our 50th year Extravaganza will be a two day event on Saturday July 31st and August 1st, 2010. The board of directors and other members are now actively working on plans for this event. The monthly board meeting have always been open to all club members. As our planning for this event (and in fact planning for all other events) proceeds, I would encourage any member to join the process by attending our club's board meetings and/or contact a board member with your thoughts and ideas.

President Bob Wirth
