Heritage Day Parade

The Heritage Day Parade in South Milwaukee found four of our cars participating. Ed Cassel, who hosted this event, almost didn't make it. The day prior to the parade, Ed had a flat tire (with no spare). Ed considered getting the tire repaired, but a quicker fix was to borrow a tire from someone that had a Model T wire wheel. Jim Oliva provided the temporary tire. Then Ed had a engine fan problem. Somehow the fan became loose and made it's mark on the radiator. Mike Zahorik and Erv Wilkowski helped Ed make the necessary repairs. Jeff Clark, Chris Schoenemann and Mike Zahorik met Ed Cassel in South Milwaukee. At the line up of this parade we came across John Boswell, one time Club member. He had his 1914 Oakland in the parade. John sold his Model T, but still is a pretty big gear head. The parade came off with no problems. At the end of the parade, Ed Cassel led us north to downtown Milwaukee and GermanFEST. During this trip, Jeff Clark started to notice some difficulties with his car. Lack of power. Go to Page 10 for more.
